KATIE JACOBY

EVP, Strategy and Development, Anchor Health Properties

Bellevue-based **PMF Investments** recently broke ground on Pioneer Crossing, a six-building, 86K SF development in downtown Puyallup. The development will be anchored by a 56K SF **Safeway**. It sits at the corner of East Pioneer Avenue and Shaw Road E.

“Demand for high-quality, convenient shopping is important for a growing area like the East Shaw Road area of downtown Puyallup,” PMF Investments President Brian Franklin said in a statement. “At Pioneer Crossing, our goal is to create the best-developed retail in **Pierce County**, and we couldn’t be more thrilled to work with the city of Puyallup and Albertsons Companies on this new venture.”

The development will include five stand-alone buildings ranging from 3K to 8K SF in addition to the Safeway store and a stand-alone Safeway fuel station. The project is adjacent to the under-construction Knutson Farms Industrial Park.
